

Reports and Recommendations

(Step 4 of the "Soil Balancing Process" – see page 2)

Home Soil Solutions can help you every step of the way. We provide you with a full analysis of your soil sample in an easy-to-understand report, alongside a full biological gardening program and recipes for an Annual Soil Balancing Amendment and a Dry Mineral Fertiliser. With these reports and recipes, we can then prepare the minerals required and supply you with any additional supplements as required by the report. The full biological gardening program will outline the steps you will then need to follow to balance and fertilise your soil.

Report and results provided by Home Soil Solutions:

- Lab data results converted to a coloured, easy-to-interpret graph with recommended parameters.
- Report explaining the results.
- Recipe for a mineral blend recommending how many grams of which minerals, per m² need to be applied to the soil to bring it into balance.
- Full Biological Gardening Program

Total for all reports: **\$93.50** (incl GST)

Note: The Home Soil Solutions fee for soil reporting and recommendations is additional to the EAL soil analysis fee of \$114.40, which is paid directly to the lab via their chain of custody form.

Your payment for soil reporting and recommendation services by Home Soil Solutions should be made at the time of posting your soil sample to the lab. Please advise us by email or phone call to Tim at tim@homesoilsolutions.com.au or phone order on 0439 717 023. An invoice will be sent once payment is received, or prior to payment if requested.
